Rehoteq AI Curriculum: Primary (P1 to P6)

Weekly scheme of work, Nigerian 13-week terms

Edition 2.0, Scheme of Work, Session 2026/2027

Rehoteq Technologies | AI Curriculum for Nigerian Schools

How this scheme of work is organised

Nigerian schools run three terms per session, and each term is a 13-week term. This edition follows that rhythm exactly, so the curriculum can drop straight into any school's diary.

Weeks 1 to 10: teaching. One topic per week. Each week carries two periods: Period 1 introduces the new concept, Period 2 is practice, an activity, or project work. The subtopics are written in the table showing which part of the topic each period takes.

Week 11: examinations. End-of-term examinations. Revision runs through weeks 9 and 10.

Weeks 12 and 13: marking and computation. Teachers mark scripts, compute results, and hold results review; schools then close (in the first term, typically by 16 or 17 December).

Sample calendar for 2026/2027. First term: September 7 to December 18, 2026 (teaching ends the second week of December, examinations and marking follow, closure by December 16 or 17). Second term: January 4 to April 2, 2027. Third term: April 26 to July 30, 2027. Schools shift these dates to match their own calendar; the 13-week structure stays the same.

Periods. The scheme assumes two periods per week for AI and digital skills. Where a school gives three periods, the extra period extends the Week 2 project or practice work.

Instructional materials. Every week in the tables below lists the materials the lesson needs. The primary AI kit is: charts and pictures, solid objects (bottle tops, beads, building blocks, toys), flash and situation cards, and devices: computers, tablets, or mobile phones, where one shared phone or tablet can serve a small group. Where a school has no computer lab, every lesson still runs: the unplugged option with solid objects, cards and charts carries the concept, and the device-based activity is demonstrated on the teacher's phone.

Nigerian context with global relevance

Local first. Every level anchors examples in Nigerian life: POS machines and bank fraud alerts, farm and market data, Lagos traffic, Nollywood, local languages.

Global standards mapped in. Primary work uses Scratch Jr and Scratch (used in over 80 countries) and unplugged CS activities aligned to the CSTA K-12 strands (algorithms, data, computing systems, impacts of computing). Secondary work teaches Python, pandas, scikit-learn, HTML/CSS/JavaScript, SQL, and cloud free tiers, the same toolchain used in UK, US and Canadian school curricula.

Credentials and next steps. The secondary pathway points at Google AI Essentials, AWS/Azure/GCP free tiers, Kaggle and GitHub portfolios, and WAEC/NECO computer studies topics are explicitly mapped in SSS 3.

Primary 1

First Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Meet the computer**	P1: What a computer is; computers that 'think' for us | P2: Spot computers at home and in school (activity)	Chart, pictures and real objects; teacher's phone or tablet where available
2	**Parts of a computer**	P1: Monitor, keyboard, mouse, system unit; naming parts | P2: Touchscreens as all-in-one devices; labelling game	Computer or tablet with keyboard; printed keyboard chart
3	**Smart devices around us**	P1: Phones, tablets, TVs, ATMs | P2: Where we meet smart devices every day (class walk-through)	Computer or tablet with spreadsheet; printed data sheet
4	**Talking to machines**	P1: Voice assistants: asking questions, getting answers | P2: Practice asking a voice assistant simple questions	Mobile phone or smart speaker with assistant; sample questions card
5	**Computers that see**	P1: Camera apps that find faces and things | P2: Try photo filters; talk about how the phone 'knows'	Phone or tablet camera; printed sample pictures
6	**Sorting things like a computer**	P1: Grouping toys by colour and size | P2: How apps group photos; class sorting game	Phone or tablet camera; printed sample pictures
7	**Patterns all around**	P1: Clap patterns, bead strings, repeating shapes | P2: Continue and complete patterns (unplugged)	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
8	**What comes next?**	P1: Finishing a pattern; making simple guesses | P2: Guessing games: what does the computer expect next?	Solid objects: bottle tops, beads, blocks; flash cards; charts
9	**Robot toys**	P1: Moving a toy robot by command | P2: Left, right, forward: giving clear instructions	Toy robot or pupil-robot; open floor or desk space
10	**Term project and revision**	P1: Build a class picture-sorting corner | P2: Recap of all ten weeks; project show	Solid objects: bottle tops, beads, blocks; flash cards; charts
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Second Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Looking back at first term**	P1: Quick quiz on parts, patterns, sorting | P2: Team quiz game	Solid objects: bottle tops, beads, blocks; flash cards; charts
2	**Shapes on the screen**	P1: Drawing circles and squares in a paint app | P2: Draw a house from shapes	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
3	**Colours on the screen**	P1: Filling pictures with colour | P2: Recreate a Nigerian flag scene	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
4	**Counting with computers**	P1: Counting objects in pictures | P2: Number games on screen and unplugged	Solid objects: bottle tops, beads, blocks; flash cards; charts
5	**Matching games**	P1: Matching letters, animals and sounds | P2: Class matching tournament	Solid objects: bottle tops, beads, blocks; flash cards; charts
6	**Computers make music**	P1: Playing rhymes and songs | P2: Make a simple beat pattern	Solid objects: bottle tops, beads, blocks; flash cards; charts
7	**Computer story time**	P1: Audio stories and story apps | P2: Retell a story in your own words	Phone or speaker with audio clips; picture story cards
8	**Being safe with devices**	P1: Time limits, posture, asking permission | P2: Role-play: asking an adult before installing anything	Situation cards; chart; sample screenshots (printed)
9	**Project: my tech corner**	P1: Present your favourite device and what it does | P2: Show and tell with a drawing	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
10	**Revision and assessment practice**	P1: Revisit every topic | P2: Class quiz; exam preparation	Chart paper and markers; available devices for demo
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Third Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Recap of second term**	P1: Review games on shapes, counting, matching | P2: Quiz relay	Tablet or computer with paint app; crayons, paper and solid

			shapes for the unplugged option
2	**Computer helpers in our community**	P1: Bank machines, hospital machines, POS agents | P2: Match helper machines to their jobs	Solid objects: bottle tops, beads, blocks; flash cards; charts
3	**Drawing with a computer**	P1: Free drawing tools | P2: Draw your family and label it	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
4	**Typing our names**	P1: Finding letters on the keyboard | P2: Type your name three times, fast and neat	Computer or tablet with keyboard; printed keyboard chart
5	**Learning videos**	P1: Watch a short educational video | P2: Say one thing you learned	Chart, pictures and real objects; teacher's phone or tablet where available
6	**Giving directions**	P1: Moving a character: up, down, left, right | P2: Unplugged grid game with a 'robot' pupil	Toy robot or pupil-robot; open floor or desk space
7	**Robots follow paths**	P1: Send a toy robot around obstacles | P2: Design your own path and test it	Toy robot or pupil-robot; open floor or desk space
8	**Kindness with technology**	P1: Sharing devices; kind words online | P2: Class kindness chart	Computer or tablet with spreadsheet; printed data sheet
9	**Project: tech helpers poster**	P1: Draw and label computer helpers | P2: Poster walk: class gallery	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
10	**Revision**	P1: Recap the year | P2: End-of-year practice quiz	Chart paper and markers; available devices for demo
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Primary 2

First Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Review: parts of a computer**	P1: Naming parts and their jobs | P2: Parts bingo	Chart, pictures and real objects; teacher's phone or tablet where available
2	**Input and output**	P1: What goes in: touch, voice, keys | P2: What comes out: pictures, sound, print	Mobile phone or smart speaker with assistant; sample questions card
3	**How computers help us**	P1: School, hospital and market examples | P2: Draw a computer helping someone	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
4	**AI in daily life**	P1: Suggestions in video apps and games | P2: Predictive text: how the phone guesses your word	Chart, pictures and real objects; teacher's phone or tablet where available
5	**Taking good photos**	P1: Framing, light, retaking | P2: Photo walk around school	Phone or tablet camera; printed sample pictures
6	**Sorting by rules**	P1: Sort pictures by colour, size, type | P2: Compare with how apps sort photos	Phone or tablet camera; printed sample pictures
7	**Ordering and counting data**	P1: Arrange items smallest to largest | P2: Build a class height or age ordering chart	Computer or tablet with spreadsheet; printed data sheet
8	**Asking good questions**	P1: Getting better answers from assistants | P2: Question improvement game	Mobile phone or smart speaker with assistant; sample questions card
9	**Screen time and safety**	P1: Rules, breaks, telling an adult | P2: Make a class safety poster	Situation cards; chart; sample screenshots (printed)
10	**Project and revision**	P1: Build a class sorting wall | P2: Recap quiz and project show	Solid objects: bottle tops, beads, blocks; flash cards; charts
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Second Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials

1	**Recap**	P1: Quiz on first-term topics | P2: Team quiz	Chart paper and markers; available devices for demo
2	**Numbers on the screen**	P1: Calculator games | P2: Solve market-price sums with a calculator	Chart, pictures and real objects; teacher's phone or tablet where available
3	**Writing words on screen**	P1: Typing simple words | P2: Type three sentences about yourself	Computer or tablet with keyboard; printed keyboard chart
4	**Picture stories**	P1: Arrange pictures to tell a story | P2: Build a story strip in a paint app	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
5	**Voice search**	P1: Ask, listen, and repeat back | P2: Compare two answers from an assistant	Mobile phone or smart speaker with assistant; sample questions card
6	**Recognising voices**	P1: How phones know mummy's voice | P2: Test: whose voice unlocks the assistant?	Mobile phone or smart speaker with assistant; sample questions card
7	**Games that learn**	P1: Games that get harder as you play | P2: Play one; describe how it changed	Chart, pictures and real objects; teacher's phone or tablet where available
8	**Classifying animals**	P1: Group animals by features | P2: Sort farm animals vs wild animals; AI does this too	Solid objects: bottle tops, beads, blocks; flash cards; charts
9	**Home tech helpers**	P1: Smart TVs, alarms, washing machines | P2: Draw and label home tech	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
10	**Project and revision**	P1: Present a home tech helper | P2: Recap quiz	Chart paper and markers; available devices for demo
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Third Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Recap**	P1: Review of term two | P2: Quiz relay	Chart paper and markers; available devices for demo

2	**Maps and directions**	P1: Find home and school on a map app | P2: Draw a map from school to home	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
3	**Weather apps**	P1: Read today's weather | P2: Dress-the-figure activity by forecast	Phone with internet; printed map and weather charts
4	**Shopping lists on a phone**	P1: Make and tick a list | P2: Market role-play with the list	Chart, pictures and real objects; teacher's phone or tablet where available
5	**Making cards on the computer**	P1: Birthday and thank-you cards | P2: Design a card for a classmate	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
6	**Simple loops**	P1: Repeat patterns with instructions | P2: Scratch Jr: make a sprite repeat a dance	Computers or tablets with Scratch or Scratch Jr; printed block guides
7	**Robots follow paths 2**	P1: More complex paths and obstacles | P2: Path design challenge	Toy robot or pupil-robot; open floor or desk space
8	**Being kind and safe online**	P1: Only talk to people you know; tell an adult | P2: Safety scenarios and responses	Situation cards; chart; sample screenshots (printed)
9	**Project: my community app idea**	P1: Draw an app that helps the market or school | P2: Pitch your idea in one minute	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
10	**Revision**	P1: Recap the year | P2: End-of-year practice	Chart paper and markers; available devices for demo
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Primary 3

First Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**How computers work**	P1: Input, process, output | P2: Sort everyday devices into IPO stages	Solid objects: bottle tops, beads, blocks; flash cards; charts
2	**Files and folders**	P1: Save, name, find files | P2: Organise a mini file cabinet exercise	Chart, pictures and real objects; teacher's phone or tablet where available
3	**AI assistants**	P1: What they are and examples | P2: What assistants can and cannot do: test cases	Mobile phone or smart speaker with assistant; sample questions card
4	**Smart sorting**	P1: Classification: spam filters, photo grouping | P2: Sort mixed 'mail' into keep and junk	Phone or tablet camera; printed sample pictures
5	**How apps make suggestions**	P1: Why you see recommended videos | P2: Trace one recommendation back to what you watched	Chart, pictures and real objects; teacher's phone or tablet where available
6	**Digital drawing**	P1: Tools and layers in a paint app | P2: Draw a labelled market scene	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
7	**Collecting data**	P1: Tally of the class's favourite foods | P2: Run the tally in groups	Computer or tablet with spreadsheet; printed data sheet
8	**Simple tables**	P1: Put the tally into a table | P2: Read and answer questions from the table	Computer or tablet with spreadsheet; printed data sheet
9	**Staying safe online**	P1: Passwords, strangers, pop-ups | P2: Spot-the-risk worksheet	Situation cards; chart; sample screenshots (printed)
10	**Project and revision**	P1: Present the class survey table | P2: Recap quiz	Computer or tablet with spreadsheet; printed data sheet
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Second Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Recap**	P1: Quiz on term one | P2: Team quiz	Chart paper and markers;

			available devices for demo
2	**First spreadsheet**	P1: Rows, columns, cells | P2: Enter the food tally into a spreadsheet	Computer or tablet with spreadsheet; printed data sheet
3	**Charts from data**	P1: Bar charts | P2: Turn the tally into a bar chart	Computer or tablet with spreadsheet; printed data sheet
4	**Making a presentation**	P1: Slides with a title and pictures | P2: Build a three-slide 'My School' deck	Chart paper and markers; available devices for demo
5	**Searching the internet**	P1: Choosing good search words | P2: Search race: find the answer fastest	Phone or computer with internet; printed search-result sheets
6	**Checking search results**	P1: Which result is best and safe? | P2: Rank three results and say why	Situation cards; chart; sample screenshots (printed)
7	**Voice to text**	P1: Dictating short sentences | P2: Dictate and correct a sentence	Mobile phone or smart speaker with assistant; sample questions card
8	**Translation apps**	P1: English to Yoruba, Hausa or Igbo | P2: Test a translation; find where it fails	Mobile phone or smart speaker with assistant; sample questions card
9	**Finding patterns**	P1: Shape and number patterns | P2: How computers spot patterns: sorting demo	Solid objects: bottle tops, beads, blocks; flash cards; charts
10	**Project and revision**	P1: Present the term's charts | P2: Recap quiz	Computer or tablet with spreadsheet; printed data sheet
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Third Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Recap**	P1: Review of term two | P2: Quiz relay	Chart paper and markers; available devices for demo
2	**First code: Scratch Jr**	P1: Sprites, stage, blocks | P2: Explore the interface	Computers or tablets with Scratch or Scratch Jr; printed block guides
3	**Sequences**	P1: Make the sprite move in order | P2: Build a two-step animation	Computers or tablets with Scratch or Scratch Jr; printed

			block guides
4	**Loops**	P1: Repeat movements | P2: Dance loop challenge	Computers or tablets with Scratch or Scratch Jr; printed block guides
5	**Events**	P1: Tap to start an action | P2: Build a tap-to-run story	Computers or tablets with Scratch or Scratch Jr; printed block guides
6	**Debugging**	P1: Find and fix mistakes | P2: Fix three broken projects	Computers or tablets with Scratch or Scratch Jr; printed block guides
7	**Sensors everywhere**	P1: Automatic doors, torch light, smart bulbs | P2: Sensor scavenger hunt around school	Chart, pictures and real objects; teacher's phone or tablet where available
8	**Weather data project**	P1: Record a week of weather | P2: Make a simple chart from your records	Computer or tablet with spreadsheet; printed data sheet
9	**Presenting our projects**	P1: Show and tell | P2: Class showcase with feedback	Chart paper and markers; available devices for demo
10	**Revision**	P1: Recap the year | P2: End-of-year practice	Chart paper and markers; available devices for demo
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Primary 4

First Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Hardware and software**	P1: Examples of each | P2: How they work together: sorting game	Solid objects: bottle tops, beads, blocks; flash cards; charts
2	**The operating system**	P1: Desktop, files, settings | P2: Personalise a practice desktop	Chart, pictures and real objects; teacher's phone or tablet where available
3	**Word processing**	P1: Type, edit, save a paragraph | P2: Write and format 'A Day in My Town'	Computer or tablet with keyboard; printed keyboard chart
4	**Types of data**	P1: Numbers, text, pictures, sound | P2: Data-type sorting relay	Computer or tablet with spreadsheet; printed data sheet
5	**AI all around us**	P1: Maps ETA, camera modes, chatbots | P2: AI spotting walk: list five AI touches	Mobile phone or smart speaker with assistant; sample questions card
6	**Classification practice**	P1: Sorting data into groups by rules | P2: Write your own sorting rule and test it	Computer or tablet with spreadsheet; printed data sheet
7	**Recommendation systems**	P1: Why shops and apps suggest items | P2: Trace a suggestion to its cause	Chart, pictures and real objects; teacher's phone or tablet where available
8	**Research skills**	P1: Search well, choose trusted sites | P2: Research a Nigerian invention	Computer or tablet with browser
9	**Digital citizenship**	P1: Kindness, credit, reporting problems | P2: Case discussion: the copied project	Situation cards; chart; sample screenshots (printed)
10	**Project and revision**	P1: Mini research presented on slides | P2: Recap quiz and showcase	Phone or computer with internet; printed search-result sheets
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Second Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials

1	**Recap**	P1: Quiz on term one | P2: Team quiz	Chart paper and markers; available devices for demo
2	**Spreadsheet formulas**	P1: AutoSum, plus and times | P2: Compute market-stall profits	Computer or tablet with spreadsheet; printed data sheet
3	**Charts and what they show**	P1: Choosing the right chart | P2: Chart three datasets and defend the choice	Computer or tablet with spreadsheet; printed data sheet
4	**Designing slides**	P1: Layout, fonts, colours, less text | P2: Redesign a crowded slide	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
5	**Scratch: stage and sprites**	P1: Interface and motion blocks | P2: Make a sprite navigate the stage	Computers or tablets with Scratch or Scratch Jr; printed block guides
6	**Sequences and loops**	P1: Build a moving scene | P2: Animate a Nigerian market scene	Computers or tablets with Scratch or Scratch Jr; printed block guides
7	**Variables: keeping score**	P1: Store and change values | P2: Add a score to your animation	Chart, pictures and real objects; teacher's phone or tablet where available
8	**Debugging practice**	P1: Find and fix errors | P2: Fix three broken shared projects	Computers or tablets with Scratch or Scratch Jr; printed block guides
9	**Data and patterns**	P1: Spot patterns in a data table | P2: Predict the next value and justify it	Computer or tablet with spreadsheet; printed data sheet
10	**Project and revision**	P1: Present your project | P2: Recap quiz	Chart paper and markers; available devices for demo
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Third Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Recap**	P1: Review of term two | P2: Quiz relay	Chart paper and markers; available devices for demo
2	**Scratch game project**	P1: Build a simple maze or catch game | P2: Play-test classmates' games	Computers or tablets with Scratch or Scratch Jr; printed

			block guides
3	**Binary idea**	P1: Computers count with 1s and 0s | P2: Unplugged binary cards: count to 31	Tablet or computer with paint app; crayons, paper and solid shapes for the unplugged option
4	**What is machine learning?**	P1: Computers learn from examples | P2: Rules vs examples sorting duel	Solid objects: bottle tops, beads, blocks; flash cards; charts
5	**Training a model**	P1: Teachable Machine with pictures | P2: Teach it to sort bottle caps and bottle tops	Computer or tablet with internet (Teachable Machine); sample objects or pictures
6	**When AI gets it wrong**	P1: Wrong predictions and why | P2: Break the model on purpose; discuss	Computer or tablet with internet (Teachable Machine); sample objects or pictures
7	**Fairness in AI**	P1: Same rules for everyone | P2: Case: the model that favours one group	Computer or tablet with internet (Teachable Machine); sample objects or pictures
8	**Data privacy**	P1: What apps collect | P2: Private vs shareable sorting exercise	Computer or tablet with spreadsheet; printed data sheet
9	**E-waste in Nigeria**	P1: Where old devices go | P2: Design an e-waste poster	Pictures or safe samples of old devices; e-waste chart
10	**Project and revision**	P1: Present your trained model | P2: Recap the year	Computer or tablet with internet (Teachable Machine); sample objects or pictures
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Primary 5

First Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Networks**	P1: Wi-Fi, cables, how devices connect | P2: Map the school's network on paper	Phone with internet; printed map and weather charts
2	**Email**	P1: Compose, send, reply | P2: Send a practice mail to your teacher	Computer or phone with email access
3	**Chatbots**	P1: What they are; trying one | P2: Test three questions; note where it fails	Mobile phone or smart speaker with assistant; sample questions card
4	**How chatbots learn**	P1: Learning from lots of text | P2: Why it sometimes gets it wrong: examples	Mobile phone or smart speaker with assistant; sample questions card
5	**Image recognition**	P1: Faces, plants, products | P2: Test a plant-identifying app	Phone or tablet camera; printed sample pictures
6	**Speech recognition**	P1: Voice notes to text | P2: Test with Nigerian accents; discuss errors	Mobile phone or smart speaker with assistant; sample questions card
7	**Data as evidence**	P1: Numbers behind claims; simple averages | P2: Check a class claim with real data	Computer or tablet with spreadsheet; printed data sheet
8	**Spotting false information**	P1: Clickbait, edited images, sources | P2: Fact-check three posts in teams	Situation cards; chart; sample screenshots (printed)
9	**Scratch: conditions**	P1: If-then blocks | P2: Build a quiz that reacts to answers	Computers or tablets with Scratch or Scratch Jr; printed block guides
10	**Project and revision**	P1: Present your Scratch quiz | P2: Recap quiz	Computers or tablets with Scratch or Scratch Jr; printed block guides
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Second Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials

1	**Recap**	P1: Quiz on term one | P2: Team quiz	Chart paper and markers; available devices for demo
2	**Spreadsheets for analysis**	P1: Sorting and filtering data | P2: Analyse the class attendance data	Computer or tablet with spreadsheet; printed data sheet
3	**Conditional formatting**	P1: Colour rules on tables | P2: Highlight late arrivals automatically	Computer or tablet with spreadsheet; printed data sheet
4	**Scratch: lists**	P1: Keep a list of quiz answers | P2: Upgrade your quiz with lists	Computers or tablets with Scratch or Scratch Jr; printed block guides
5	**Training a real model**	P1: Teachable Machine with images | P2: Train a waste-sorting model (plastic, food, paper)	Computer or tablet with internet (Teachable Machine); sample objects or pictures
6	**Testing the model**	P1: New pictures, success and failure | P2: Score your model on ten new images	Computer or tablet with internet (Teachable Machine); sample objects or pictures
7	**Model mistakes**	P1: Why accuracy matters | P2: Case: a wrong medical image call	Computer or tablet with internet (Teachable Machine); sample objects or pictures
8	**AI in Nigerian farms and clinics**	P1: Crop disease apps, local examples | P2: Map one AI tool to one Nigerian problem	Phone with internet; printed map and weather charts
9	**Ethics: bias**	P1: Training data matters | P2: Build a biased dataset and watch it fail	Computer or tablet with spreadsheet; printed data sheet
10	**Project and revision**	P1: Present your model and tests | P2: Recap quiz	Computer or tablet with internet (Teachable Machine); sample objects or pictures
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Third Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Recap**	P1: Review of term two | P2: Quiz relay	Chart paper and markers; available devices for demo
2	**First web page**	P1: HTML tags, headings | P2: Build your 'About Me' page	Computer or tablet with browser

3	**Pictures and links**	P1: Add images and links | P2: Link your page to a classmate's page	Chart, pictures and real objects; teacher's phone or tablet where available
4	**More pages**	P1: Multi-page mini site | P2: Add two more pages and a menu	Computer or tablet with browser
5	**Google Sites**	P1: Build a class site | P2: Each pupil contributes one section	Computer or tablet with browser
6	**Publishing and sharing**	P1: Share the site safely | P2: Review what should and should not go public	Computer or tablet with browser
7	**Digital portfolio**	P1: Collect your best work in one place | P2: Start your P6 portfolio	Computer or tablet with browser
8	**Add an AI touch**	P1: Embed or link your trained model or chart | P2: Demo day rehearsal	Computer or tablet with spreadsheet; printed data sheet
9	**Presentations**	P1: Class showcase | P2: Present to another class	Chart paper and markers; available devices for demo
10	**Revision**	P1: Recap the year | P2: End-of-year practice	Chart paper and markers; available devices for demo
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Primary 6

First Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Documents like a pro**	P1: Formatting, headings, lists | P2: Produce a one-page project brief	Chart paper and markers; available devices for demo
2	**Planning a research project**	P1: Question, sources, plan | P2: Plan a survey on school feeding	Computer or tablet with spreadsheet; printed data sheet
3	**AI image tools**	P1: What they make | P2: When is it honest to use them? class debate	Chart, pictures and real objects; teacher's phone or tablet where available
4	**Using chatbots well**	P1: Good prompts, checking answers | P2: Prompt workshop; verify one answer with a source	Mobile phone or smart speaker with assistant; sample questions card
5	**What is an algorithm?**	P1: Steps to solve a problem | P2: Write the algorithm for making jollof rice	Flash cards; flowchart symbol chart; counters or blocks
6	**Flowcharts**	P1: Symbols, simple flows | P2: Flowchart your morning routine	Computer or tablet with spreadsheet; printed data sheet
7	**Pseudocode**	P1: Write steps in structured plain words | P2: Turn two flowcharts into pseudocode	Computer or tablet with spreadsheet; printed data sheet
8	**Scratch: bigger project**	P1: Plan with variables and conditions | P2: Start a term project: quiz, story or game	Computers or tablets with Scratch or Scratch Jr; printed block guides
9	**Testing and improving**	P1: Iterate with user feedback | P2: Peer testing and fixes	Chart, pictures and real objects; teacher's phone or tablet where available
10	**Project and revision**	P1: Finish and present the project | P2: Recap quiz	Chart paper and markers; available devices for demo
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Second Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Recap**	P1: Quiz on term one | P2: Team quiz	Chart paper and markers;

			available devices for demo
2	**The data project cycle**	P1: Ask, collect, clean, analyse, share | P2: Map a real question onto the cycle	Computer or tablet with spreadsheet; printed data sheet
3	**Collecting good data**	P1: Surveys and forms | P2: Run a Google Forms survey in school	Computer or tablet with spreadsheet; printed data sheet
4	**Cleaning data**	P1: Fix mistakes in a table | P2: Clean a messy class dataset	Computer or tablet with spreadsheet; printed data sheet
5	**Charts and infographics**	P1: Tell a story with numbers | P2: Make an infographic on your survey	Computer or tablet with spreadsheet; printed data sheet
6	**Machine learning concepts**	P1: Training, testing, predicting | P2: Teachable Machine project start	Computer or tablet with internet (Teachable Machine); sample objects or pictures
7	**Teachable Machine project**	P1: Train, test, present a classifier | P2: Finish and demo your classifier	Computer or tablet with internet (Teachable Machine); sample objects or pictures
8	**AI and jobs**	P1: What changes, what stays | P2: List five new Nigerian AI-era jobs	Chart, pictures and real objects; teacher's phone or tablet where available
9	**Digital footprint**	P1: What the internet remembers | P2: Audit your own footprint checklist	Situation cards; chart; sample screenshots (printed)
10	**Project and revision**	P1: Present the data project | P2: Recap quiz	Computer or tablet with spreadsheet; printed data sheet
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable

Third Term

Week	Topic	Subtopics (period 1 / period 2)	Instructional materials
1	**Recap**	P1: Review of term two | P2: Quiz relay	Chart paper and markers; available devices for demo
2	**Getting secondary-ready**	P1: Faster typing, cloud documents | P2: Timed typing test; cloud doc exercise	Computer or tablet with keyboard; printed keyboard chart
3	**Email etiquette**	P1: Writing proper mails | P2: Write a mail to	Computer or phone with email

		a secondary school	access
4	**Scratch capstone**	P1: Build a full project | P2: Capstone work with milestone checks	Computers or tablets with Scratch or Scratch Jr; printed block guides
5	**Presentation capstone**	P1: Present research with slides | P2: Rehearse and refine	Phone or computer with internet; printed search-result sheets
6	**Primary leaving tech project**	P1: Combine document, slides, Scratch | P2: Assemble the leaving portfolio	Computers or tablets with Scratch or Scratch Jr; printed block guides
7	**Tech careers day**	P1: Meet Nigerian technologists | P2: Q&A and reflection notes	Career chart or short video on the teacher's phone
8	**Cloud tools practice**	P1: Collaborate in Google Docs | P2: Group document challenge	Solid objects: bottle tops, beads, blocks; flash cards; charts
9	**Project fair**	P1: Showcase to teachers and parents | P2: Run the fair	Chart paper and markers; available devices for demo
10	**Revision and farewell**	P1: Recap six years | P2: Graduation tech quiz	Chart paper and markers; available devices for demo
11	**Examinations**	End-of-term examination on the term's topics.	Not applicable
12	**Marking and computation**	Teachers mark scripts and compute continuous assessment and exam scores.	Not applicable
13	**Results and closing**	Results review, records update, school closes.	Not applicable
